

## JAIPUR CITY

is unusual among pre-modern Indian cities in the regularity of its streets, and the division of the city

The urban quarters are further divided by networks of gridded streets. Five quarters wrap around the east, south, and west sides of a central palace quarter, with a sixth quarter immediately to the east.

The Palace quarter encloses the Hawa Mahal palace complex, formal gardens, and a small lake.

Nahargarh Fort, which was the residence of the King Sawai Jai Singh II, crowns the hill in the northwest corner of the old city. The observatory, Jantar Mantar, is one of the World Heritage Sites.

Keeping up with the tradition Chordia Group brings PRIME VILLE a very well planned, gated mini township with wide sector roads, all premium features and amenities, in a clean and green surrounding.
